

FURNICA 2011

NEW PRODUCTS

1. ADJUSTABLE FURNITURE MOUNTING SET

Wall cabinet mounting set enabling adjustment in both vertical and horizontal planes.

AGAS Sp. z o.o., Hall 6A, Stand 53

2. ARTURO SALICE'S UNICA RUNNER – PUSH-OPEN RUNNER WITH INTEGRATED SOFT-CLOSE SYSTEM FOR HANDLE-FREE FURNITURE

A revolutionary mechanical drawer opening system from Arturo Salice enables drawer opening with a single push. When fully extended, the decelerating mechanism changes its function, ensuring silent closing action. A unique, fully integrated construction – the only such solution on the market, covered by a lifetime warranty.

AMI POLSKA Sp. z o.o., Hall 6, Stand 17A

3. GENIUS PULL-OUT SHELVING SYSTEM FROM INOXA

Genius pull-out shelving system is designed for use in corner cabinets with hinged fronts. Each section can be easily pulled out of the cabinet. The shelves are finished in chrome surround and coated with anti-slip surface. Certified for loads up to 30 kg, the shelving system is covered by the manufacturer's lifetime warranty.

AMI POLSKA Sp. z o.o., Hall 6, Stand 17A

4. HAPTIC – NATURE ON PAPER

In addition to creating a visual appeal, HAPTIC finish foils offer a distinct tactile effect, imitating wood or other materials. The combination of patterns, colours and structures achieved thanks to HAPTIC foils adds an almost natural feeling to decorated surfaces. HAPTIC ensures enhanced quality, elegance and expression. HAPTIC foils are available in surface finishing and wrapping versions.

Representative in Poland – GABER; Manufacturer – BauschLinnemann, Hall 6A, Stand 42

5. HI-MACS® EDEN

AIMMS, the sole Polish distributor of LG HI-MACS material presents EDEN – the new eco-friendly

colour range. It is one of the most environmentally-responsible Solid Surface products, made from 40% recycled materials, available in 13 colours inspired by garden herbs. HI-MACS® EDEN is perfectly smooth, offering top durability with no compromise on colour quality.

AIMMS Krystian Kłosek, Hall 6A, Stand 14

6. OASI HANDLE LINE

Manufactured by the Italian Bosetti Marella, the OASI product line draws on the best traditions of Italian design. The new handles refer to furniture forms and accessories characteristic of the Lombardian design style of the 1920's and 1930's. Their light and sketchy forms matched with smooth outlines add unique charm and elegance to furniture. The entire production process – from design to finishing – is carried out in Italy.

ARTE METAL STYLE POLSKA, spółka z o.o., Hall 6A, Stand 37

7. REVOLUTIONARY HANGING BRACKET FOR BASE CABINETS FROM CAMAR

Already successful in the market, this unique and revolutionary solution designed for hanging base cabinets now offers new housing shapes and colours, and even more varieties of mounting brackets. However, the main advantages have remained unchanged: certified load capacity of up to 600 kg, full adjustability in both vertical and horizontal planes, as well as manufacturer's lifetime warranty.

AMI POLSKA Sp. z o.o., Hall 6, Stand 17A

8. RICH COLOURS AND DEEP MIRROR EFFECT

A new range of attractive high-gloss panel patterns and other decors. HUBERTUS, the manufacturer and distributor of "SUPER GLOSS" HIGH-GLOSS MDF PANELS, offers: 18 mm MDF panels laminated on one or two sides with high-gloss acrylic foil (ca. 1mm thick), which creates a unique impression of 3D depth. Standard board dimensions: 2800mm x 1250mm; custom furniture fronts (max. dimensions 2750x1200mm, min. dimensions 296x110mm). Basic colour range comprises 12 solid and 4 metallic colours.

F.P.H. HUBERTUS Hubert Leboch, Hall 6A, Stand 97

9. SERIES 100 – ARTURO SALICE'S NEW HINGES WITH A SHALLOW 8 MM CUP

The only solution on the market enabling the application of hinges on thin furniture fronts. Thanks to the shallow cup (only 8 mm!) the hinge can be assembled without additional washers on furniture fronts as thin as 10 mm! Compatible with the Silentia soft-close system, the hinges are covered by the manufacturer's lifetime warranty.

AMI POLSKA Sp. z o.o., Hall 6, Stand 17A

10. SLIDING DOOR RUNNER SYSTEM WITH CONCEALED TOP RUNNER

An innovative sliding door solution that allows concealing the top runner behind the sliding door panel. With the door closed, the top runner is completely concealed – only the door panel is visible, in line with contemporary interior design trends. The system is very simple, inexpensive and easy to install using Magia Senator profiles.

SENATOR Sp. z o.o., Hall 6A, Stand

11. STARBOX DRAWER

StarBox drawer is a new solution developed by Star. Its key feature is the robust runner made of durable steel and the silent close system based on rolls made of the extremely rigid POM material. StarBox's major functional feature is the integrated soft close system.

STAR POLSKA Sp. z o.o., Hall 6A, Stand 79

12. TOTEM – DISPLAY STAND FOR DISTRIBUTORS OF DRAWER RUNNERS

Drawer opening and closing system characterised by a wide range of load capacities and extension lengths. Every drawer can be easily removed from the stand to allow closer inspection. RAM, the distributor of this solution, is ready to deliver individual items within 24 hours, without minimum order restrictions.

RAM INDUSTRIE SRL, Hall 6A, Stand 7

13. WOOD JOINT WITH LEFT-HAND THREAD

Designed for use in upholstered furniture, this product serves as a socket allowing feet to be screwed in furniture. The left-hand thread connects the joint with the foot tightly to prevent unscrewing.

GLOBAL SERVICE, Hall 6A, Stands 50, 56
