## NOVELTIES

### **ASTIN SP. Z O.O.**

Pavilion 8, Stand 24

#### Elite and Prestige sliding door systems

Systems characterised by exceptionally smooth and durable surfaces obtained in a three-stage treatment process involving brushing, anodising and polishing.

#### ASTIN FUSION software

Interior and wardrobe design software, helping to visualise and value wardrobes developed using ASTIN systems, as well as prepare all construction-related calculations.

### **ARTE METAL STYLE POLSKA, SP. Z O.O.**

Pavilion 7A, Stand 20

#### "Capriccio" handles and knobs

A line of handles made of brass-plated mazak. A functional product that highlights balanced furniture proportions, adding unique character due to its light, asymmetrical, fancy design. Available is a broad variety of handle surface finishes – old silver, patinated brass, polished chromium. Installation: fixed with two screws. Design: Bosetti Marella (manufactured entirely in Italy)

### **DREWPOL SP. Z O.O.**

Pavilion 7A, Stand 5

#### "ET" Stettinum panel door, colour 3.10

Material - oak; dimension range: height 1284-283 mm, width 596-296 mm (optionally 796 mm, 896 mm). This type encompasses the following front types: lattice doors, frame doors, French doors, as well as curved panel and frame doors. A new front panel with a wide frame – this simple construction has been enriched with such elements as bevelled edges, profiled plates with patina highlights, and step-like frame finishing which adds depth to the product.

#### "E0" Cracovia panel door, colour 12.11

Material - alder; dimension range: height 1284-283 mm, width 596-296 mm (optionally 796 mm, 896 mm). Popular with customers as an oak version, this model has been given a makeover, now being available in a new colour and material. These features, along with the classic design and a broad range of front panels, make it a superb foundation for developing attractive kitchen furniture.

#### "XAJF" Gedania panel door, colour 11.8.1

Material - alder; dimension range: height 1284-283 mm, width 596-296 mm (optionally 796 mm, 896 mm). Another offer from the line of bevelled front panels, available in

fashionable light colours. Pressed bevel joints make a good match for the straight front edge line. With the gently profiled door panel, this model is well suited for demanding connoisseurs who expect no unnecessary ornaments on the front.

"XAKF" Christian panel door, colour 11.8.1

Material - alder; dimension range: height 1284-283 mm, width 596-296 mm (optionally 796 mm, 896 mm). This model has been developed for people preferring kitchens in light colours, featuring simple forms and modern appearance. Narrow frame and flat door panel add lightness to this model.

"EP" Paul panel door, colour 11.8.1

Material - alder; dimension range: height 1284-283 mm, width 596-296 mm (optionally 796 mm, 896 mm). A refined, flat front panel with a gentle curve. Classically designed and sparing in ornaments, this model is well suited for both traditional furniture sets and modern interiors.

**ESTYMA s.c. M. Anwajler, S. Łazęcki**

Pavilion 7A, Stand 43

Netfirma: Studio

Netfirma is an online application that helps manage a furniture manufacturing and trading company, or a furniture studio. This software supports workflow management, logistic processes, staff management and appraisal, offering a full insight into corporate financial performance and progress of order fulfilment, also helping compile a customer database and an integrated timetable.

**FABRYKA FRONTÓW MEBLOWYCH WIECH**

Pavilion 7A, Stand 36

Furniture fronts

Furniture fronts with high-gloss foil finish. Curved fronts with modified veneer finish.

**FORBO FLOORING POLAND**

Pavilion 7, Stand 27

Furniture Linoleum

A new line of linoleum (100% natural wood composite) designed for furniture surface finishing. The whole range comprises five product lines, each with unique application possibilities and different mechanical properties.

**GONDEK SP. Z O.O.**

Pavilion 8, Stand 20

Komandor straight connector

Another board connector in the company's portfolio. With increased width, the product guarantees more sturdy and durable connection.

Door corner protector

Applicable during transport or storage, this corner protector is suitable for doors made of MDF, aluminium and other materials.

Furniture glide with holes

An addition to the company's portfolio of furniture glides – this time especially designed for upholstery workshops. Special holes make furniture glide installation much faster and more convenient.

## **HALOGEN LIGHT TECH SP. Z O.O.**

Pavilion 7, Stand 31

### *STARLine*

The first such system in Poland. A broad range of applications guarantees comprehensive – both decorative and usable – furniture lighting; 16 options to set the light source in the fitting; 4 surfaces suitable for installation, including surface and recessed mounting; slim and discreet design; top quality materials and accurate workmanship.

### *GSSTM system*

GSSTM power system – the breakthrough solution which completely revolutionises electric power systems in terms of flexibility, safety and usability. It is the first system to allow adding, removing and repositioning individual elements along a power track. Manufactured by EUBIQ.

## **KRONING\_GMBH +CO**

Pavilion 7, Stand 54

### *Brilliant reflex*

Finishing foil for profile wrapping or flat laminating with a decor combination of a printed design (wood decor, solid colors, fantastic prints, etc.) and brilliant metallic effects. Horizontally lines, geometric squares, whatever.

## **MEGA SP. Z O.O.**

Pavilion 7, Stand 6

### *Beech square timber*

Vacuum-dried beech square timber logs with large cross-section dimensions make an excellent, most economical alternative to traditionally used glued structures. Available in 50x50 mm to 100x100 mm cross-section dimensions. Thanks to the vacuum drying technology, our timber prides itself on unparalleled quality, being free from cracks, splits and shakes. Square timber is a perfect raw material for manufacturing table legs, balusters, chairs, etc.

## **PEPLIŃSKI BANASZEWSKI SP. Z O.O.**

Pavilion 7, Stand 40

### *American square-edged timber*

American square-edged timber includes walnut, American cherry, ash, white oak, red oak, maple, alder; timber is precisely classified in accordance with American standards, which guarantees that the output parameters specified in advance are actually met in further processing. Timber edging and grading help considerably reduce the volume of waste products, at the same time increasing work efficiency.

## **POLIMARKON SP. Z O.O.**

Pavilion 7, Stand 30

### *Integral polyurethane foam products*

Elements with any given shape and surface texture, made of integral polyurethane foam. Biocidal, antistatic or non-combustible properties are also available on demand. The products have been approved for use by the Polish National Institute of Public Health (PZH).

## **P.P.H.U. „MEBLEX” DARIUSZ CHMIELEWSKI**

Pavilion 7A, Stand 21

### High gloss MDF board with acrylic film veneer

Available in 9 colours, veneered with acrylic films to offer a deep, mirror gloss effect. Dimensions: 1280 x 2800 mm. Edgebands in the same colour are also available.

### High gloss MDF fronts with acrylic film veneer

Available in all dimensions and 9 colours, veneered with acrylic films to offer a deep, mirror gloss effect.

### MDF board veneered with modified veneer

The board is pre-polished, available in 25 veneer patterns. Dimensions: 1240 x 2500 mm. Ready for further processing: edgebanding, staining, lacquering. Edgebands in the same colours are also available.

### MDF fronts veneered with modified veneer

The fronts are available in all dimensions, in 25 veneer patterns, veneered on both sides, MDF-based with water-based UV lacquer finish, employing modern and eco-friendly technology.

## **PRZEDSIĘBIORSTWO ZAOPATRZENIA BUDOWNICTWA „P.Z.-BUD” SP. Z O.O.**

Pavilion 8, Stand 12

### 6 mm coarse-grained Kerrock board

In 2009 the manufacturer of Kerrock boards has expanded the portfolio of solid surface countertops to include a 6 mm board with coarse-grained colours. The full 80-colour range of Kerrock products is now available in the following widths: 6, 8 and 12 mm.

## **REPO VABRIKUD AS**

Pavilion 7, Stand 24

### New MFC decors

Walnut California: American walnut with an elegant charisma and powerful trend-setting attitude. Larch: Experience: vivacious vertical decor in current style with exceptionally beautiful 3-D effect. Birch Karelia: the wood character shows the typical and very fine structures especially found in Birch wood grain. Side-cut flowers can be seen as well as straight-grained sections with narrowly placed growth rings. Restrained cross-fire effects are a fractional part of the décor. Olive Green: Live: a vivid colour to enhance your mood. Orange: this colour is vibrant. It denotes energy, warmth, and the sun. Lavender: sometimes we need to relax not only physically, but aesthetically as well - the naturally soft, pastel tone gives our eyes and thoughts a well deserved rest.

### Tongued and grooved Repo Floor

An all round tongued and grooved floor board Repo Floor is designed for building sub-floors on a rigid and dry sub-floor under a demanding floor covering (parquet, linoleum, carpet, paint). Size 580 x 1800 mm and 580 x 2400 mm.

## **UNIMERCO**

Pavilion 7A, Stand 10

### Tjep handheld t-nut inserting pistol

Hand held t-nut tool for fast, precise, ergonomic and secure insertion of t-nut. A good alternative to the hammer or larger insertion-machines.

## **WOLMET**

Pavilion 7A, Stand 2

*PB 031 and MK 065 mechanisms improving the functionality of upholstered furniture*

PB 031 mechanism allows both furniture seats to swivel, enabling on demand configuration. Thus a left or right-hand corner settee can be obtained, or a large double bed.

MK 065 backrest lifting mechanism for armchairs and sofas. The lifting action is supported by a gas spring, which facilitates changing the backrest position from "low" to "high", also improving overall functionality and design.

**Z.W. INTERBOR**

Pavilion 7, Stand 1

*KOIMOS 208 LIVOS*

Solid floor oil – full effect with just one application.
